

## Faculty Advisor Commitment Form

Students who have reached 45 + credits will be advised through a "dual advising" system. Academic Advisors in Student Services will also guide students through the registration process based on their program evaluation, ensuring the student is meeting graduation requirements, once they have made contact with a faculty advisor. If a faculty member is not present on campus during the registration period, the Academic Advisor will require the student to fill out a Commitment Form and then proceed with the registration process with the student.

Once NWIC students complete 45 college level credits (100 level or above), each student must select a Faculty Advisor. Faculty Advisors should be selected based on their area of expertise (see below). Students provide input in the Faculty Advisor selection process by indicating either career or educational goals or by identifying a faculty member by name. If a student that has 45 or more credits does not choose a Faculty Advisor, one will be selected for that student. Faculty Advisors will have responsibility for working with students from time of application through graduation concerning program registration and program evaluation. Faculty Advisors are an important resource, helping students transition to the workforce or other higher education opportunities.

**Role of Faculty Advisors:**

- Help in choosing courses of interest
- Help planning class schedules with Academic Advisors
- Assist in finding internships and work opportunities
- Facilitate development of professional skills related to field of interest
- Assist in strategizing for success

Faculty Advisor	Area of instruction/interest/expertise
<b>Allen, Phil</b>	<b>Native Studies</b>
<b>Berrett, Ane</b>	<b>Human Services, Sociology, Psychology</b>
