NWIC Program Review Form

P

Program Title ATA Information Technology Date review submitted: 3/3/16

Type of Program:

BS: BA: AAS: AST: AAS-T: ATA: Certificate: Award of Completion

Person Presenting Program: Gary Brandt

Yes No Should this program remain active? If no, attach program deactivation form.

Note: You do not need to complete the remainder of this form if you are deactivating the program.

Which sites offer this entire program? Check all that apply:

Lummi Muckleshoot Nisqually Nez Perce Port Gamble/S'Klallam Swinomish
 Tulalip Independent Learning

Core courses in this program have been offered using the following modalities within the past year:

Check all that apply.

Face-to-Face locations: **LU** MS NI NP PG SW TU
 Individualized Learning (IL or LC) Online ITV Telecourse Hybrid
 Other, describe _____ Not taught at all

If program has not been offered during the past year, attach explanation of why it should remain active.

Program Outcomes and Assessment Information

Yes Does the program have a current set of Curriculum Committee approved program outcomes?

Some do Do the program outcomes need to be revised? If so, prepare a revised set of program outcomes and contact the chair of the Curriculum Committee about the intent to update the program outcomes.

Yes Does the program have current program outcomes rubrics? If not, they will need to be developed.

Yes Does the program have a current curriculum map that clearly indicates the alignment of program and institutional outcomes? If not, it will need to be developed.

Next Steps and the Future of the Program

- 1. Respond to each point raised in the program prioritization recommendations for this program.

See Attached

- 1. Update criterion 10 of the program prioritization for this program. The program prioritization documents can be found on the G drive in the Program Prioritization folder.

See Attached

The area below is for Curriculum Committee use only.

Summary of Curriculum Committee deliberations:

Recommendations:

Curriculum Committee action taken:

- Approved
- Returned to presenter for corrections

Approval of Program Review:

Curriculum Committee Chair signature

Date

Dean of Academics and Distance Learning signature

Date:

Vice President of Instruction and Student Services signature

Date:

ATA IT Program Recommendations

1. Retain a recruiter dedicated to 2-yr programs.
2. Retain a part-time instructor at Lummi site that teaches required IT classes regardless of student count.
3. Expand the IT program or a subset of the IT program to other sites.
4. Rename IT program to Information and Pre-Engineering Technology.
5. Make more classes transferable.
6. Make a program modification that eliminates outdated Computer Maintenance & Repair concentration.
7. Rename with updated outcomes CMPS 105 and CMPS 205 to ENGR XXXs
8. Replace CMPS 225 (Visual Basic) with CMPS 230 (C++)
9. Create an AST Computer Science transfer degree. Basically only two more programming classes that are a continuation of CMPS 230 need to be developed to create this 2-yr degree. All of the other courses are already in the catalog. This will meet the first two years of WWU's computer science program.
10. Continue to examine the possibility of a pre-engineering option as an entirely separate subset of the IT program. It would be heavy on the math and oriented toward a combination of mechanical and aeronautical engineering concepts. The current rocketry program and fabrication laboratory provide examples of some of the things that can be done.
11. Identify potential internships with hi-tech companies and purposefully prepare students for internships.
12. Be a "rapid response" unit that can implement new content with a minimum of stress. For example, suppose the nano-technology industry immediately needed numerous technicians. Within a week or two weeks' time, a course or series of courses and labs could be setup to take advantage of the opportunity.
