In what ways has this class influenced your work or studies so far?

went into greater depth of subject...lots of good info

I like hearing the stories of the other in class.

I've learned a lot of good tips that there is room for improvement. I wasn't aware of some of the changes that were made. I feel that our program was not making the improvements as needed or required. My health had consequences when I was out of the office with my arm surgery, my elbow surgery & some my health problems. I know that is no excuse.

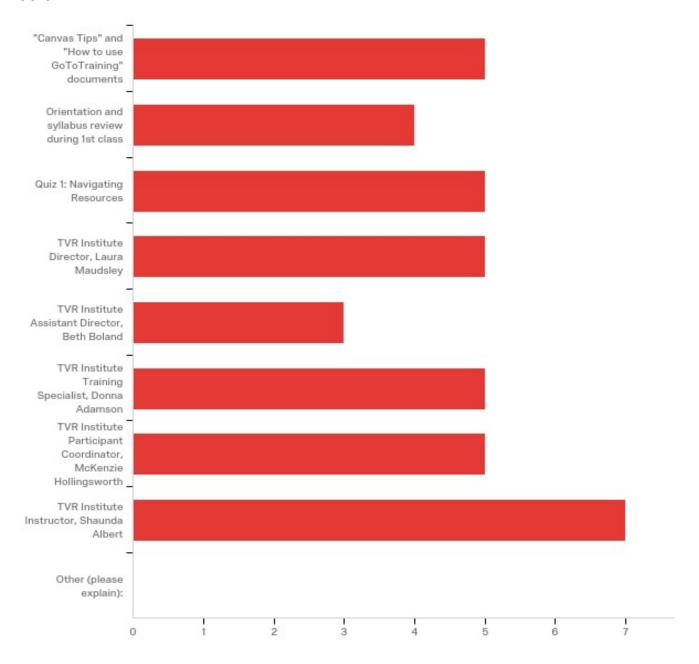

I have gained a better understanding of the program and how important it is to have connections with state and federal programs as well. I enjoy this, I'm learning everyday.
