I have more knowledge of my program and how to navigate through the steps of the case to keep it flowing.

Not sure a this point.

It has helped in establishing confidence with the material utilized in everyday workplace atmosphere.

This series of courses have reignited my desire to further my education. After we finish these up, I want to go after my Doctorate.

our instructor had a great way to presenting the SSI and SSDI and the benefits and possible incentives that are available to our consumers that are on SSI, SSDI and have a desire to return to work or work.

It has made me more conscientious of my eligibilities and making sure my resources are precise and has me question the way I ask for information.

The course has influenced me in wanting to be a better counselor and to learn more!

It has helped me to be aware that if I have a client that I'm in doubt about work abilities because of a disability, I know more about how trial work experiences work.

This has been a valuable source of information and is preparing me for a career in vocational rehabilitation service's

The information in this course helped me gain a better understanding of assessments and eligibility. I have learned a lot and gained resources to help support me in determining the eligibility of our participants.

I cannot think of any more tools for support than what I'm being provided at present. Maybe that is due to my inexperience but I think Donna does a real good job of making available several ways to learn and support each other in the class.

First online course--pretty lost and it was difficult to maintain connection. i was behind before i began. People are really connected and the place online where the students are to tell about themselves is kind of like a social media and I didn't know what to say. Maybe the teacher could ask individual students questions as we go--but maybe--i'm not sure.

Since I have selected Extremely easy on the survey, which is true for me, that leaves no room for improvement.
