

Course Outcomes: CMPS 100

Basic Computers

The following are working course outcomes. These outcomes will be reviewed by the NWIC Curriculum Committee during the curricular review process in 2017 with the intent of creating and approving course outcomes.

Students are expected to be able to demonstrate the following skills at the basic level:

- Use MS Windows
- Use a web browser to access information on the internet
- Use any email program (Yahoo, MSN, etc.) to communicate on the internet
- Use MS Word for communication
- Demonstrate knowledge of the hardware components of computers
- Demonstrate knowledge of the types of uses of software
