### 3 - In what ways has this course influenced your work or studies so far?

In what ways has this class influenced your work or studies so far?
This course has given me a lot of information
well I am learning lots quick
it helps structure a new insight of how things can run better.
It helps me to remember how to do certain tasks, So, after learning so much about VR, as we get older we all need to take a refresher course.
The class material helps me as a refresher for the information that I might not be using everyday and it allows to me explore more research areas as I'm build my client case file.
It has shown me all the variety of tools available to do assessments and after assessments I can better establish eligibility.
I has shown me what is needed in both Assessment and Eligibility, that I was not shown when I came on board to my current position.
Thanks this course is helping me immensely.
It has influenced me to create an easier method to determining eligibility.
I get to use the information I learned in this course and directly use it at work.
More knowledge of tribal Vocatinal rehabilitation vs state DOR

5 - What additional supports would be useful in your online class or write "none" if there aren't any:

What additional supports would be useful in your online class:
I think the timeframes for assignments need to be longer.
to have the instructor doing the class return calls or emails back would be nice
i been having problems with glitching and not hearing all the class sessions.
none
It would be use for the teachers to have some interaction with th class as we are reading through the material because hearing one voice throughout the entire hour get boring for me, not sure how the other people feel. If or when I have a thought about a tpic I want to get some feedback as we go along so I can process the material.
none that I can think of today.

i am not a employee of TVR so maybe hooking up a non tvr employee with a tvr employee might be helpful.

Well for me it would be really nice to have a class first thing in the morning and then I can plan my day better, but having a class 1/2 way through the day makes my day sort off balance. The reason that I say this is because I work out in the field in three different counties and I have to navigate a large territory and try to coordinate my time efficiently. If or when we have class I could be way up in the mountains and ZERO reception, therefore I miss the class if my cell phone does not connect. But one plus, is that I can come back to the office at the end of my day or at home in my leisure time and listen to the recorded class assignments.
