Very much in what and how some of the changes that are needed & to put into our file folder for our participants. It's improvement of benefits that are provided and good feed back from our participants. Our renewal of our policy & procedures are being updated. Being more specific in what is said and what we can do for all involved. Still working on doing more collaboration within the Tribal programs. We continue to education both tribal programs and our participants on how our program works. We need to have the support from our communities.
I love all these courses, they have provided me with many resources. It is really putting the whole picture together for me.
Restructuring my IPE forms to be more to the requirements
So many references to the Federal regulation is so helpful
coming back to VR and getting to know the regulations over again. This time I have instruction on how to do the IPE and policies and procedures. I have assistance in developing or re vamping the current policy and procedure for our VR program. This course is teaching me so much more. Thanks.

Having time to do and get our assignments in. I've been having a difficult time logging in. Our system of computer(s) getting information on our internet to be secured for our classes. It shouldn't have to take so long in order to be logged on. I try to log in at least twenty minutes, but I need to start earlier.

I adore Kelly, she is very patient and kind. She understands that we are also in the work force and there is times when we can't be there, she is always there to listen and work with us.
I don't care for the instructor reading the material to me. I already read the material so maybe relate it to the regulations
